| 35426 | MATH 116-800 | T: Prob Solv-Walking the Dog | 3 | F 4:00-7:00 | MED 003 | Martinez, M | COURSE DESCRIPTION (See Below) |
| <p>This class is designed around the concepts of problem solving, critical thinking, written communication, and oral communication. Educators will be participating in the problem solving class using the text, Crossing the River with Dogs. This problem solving class will focus on one or two problem solving math strategies during each class period. Using hands-on standards-based activities, Educators will better understand the NMTM process standards that will help their students to develop skills in problem solving, communication and representation. The class will focus on the Educators using and learning the strategy. They will be encouraged to get together and work on the problems and the solution write-ups. They will also be encouraged to exchange phone numbers so they can call one another to work on the problems. This class will give students the strategies and tools they need to complete standards based problems focused in the NMSBA testing in spring.</p> | | | | | | | |
